Mr McGuiness,

I read with great amusement the article in "The Age", of Saturday, May 19, reporting your most welcome views of the formation of a Melbourne branch of the Klan.

In the article, you were claimed to have said,

"Any member of the Klan who cares to make his/her identity public will be shot out of a cannon and into a dartboard. Their pointed heads should be well suited for this."

Now, now Mr McGuiness, you must realise that this isn't very nice. Although it must be rather depressing for you when you realise that the new Klan is not a gang of bloodthirsty, "nigger" lynching rednecks, it is still not an excuse for you to make violent threats against us. We don't hate you. All we want is separate development. You are always to be heard attacking the White man for inflicting his culture on to your people, but when someone really tries to make amends, you immediately oppose them. Please, for the sake of your own credibility, make up your mind.

THE MELBOURNE ORGANIZER.
