13th November

Dear John,

Things have been hectic since I got back, so it's taken me a week to get to writing to you to say how much I admire your paper on Keats's Satanic Verses.

I found it a subtle analysis, but what ~~was~~ was most exciting was the ethical concern - not always evident in our profession today!

It was good to catch up with you again, even if I had to be in Singapore.

Best wishes,

Monica Brady
