Dear John,

Just to re-assure that
'Miss Herbert' did, at last, arrive.

Thank you for finding & sending it.

Re the other night: Scrupsi
certainly seems to be the chosen vessel for
our reigning literature. How come a new
issue of Scrupsi is launched at the opening
of Writers' Festival & not new issues of all
the mags., or Overland, at least? How
about getting yourself on to the controlling
committee and/or trying to synchronise
an 'Overland' launch with the opening next
year!

We'll all have to grow 20 years
younger & display our dialectical skills & our
great cunning if 'Overland' is to retain &
increase its position.

with thanks,

Barrie
