Dear John,

Your secretary kindly gave me your address as I thought that you would like to have copies of your book for your Christmas stocking! Here are three to keep you going. I hope you like them. I have also enclosed one of Laurie's in case you are spreading the gospel in the right circles.

It is a bit late in the day to expect too much immediately, but I am planting the review and inspection copies and preparing for the school and university mailing as soon as they resume in the New Year.

I hope that you enjoy Cambridge. It is bleak and miserable at this time of year but it makes a Christmas round the fire with a suitable Scotch all the more pleasant. Here it will be 32* today. I have been able without difficulty to resist going to or watching the 'funny' cricket but hope to get some real stuff before long.

With all good wishes,

Yours

Bue
