Dear Rick,

Enclosed are the two stories that Barrie has marked as definite acceptances for Overland No. 119. I brought what was aside for this issue back here yesterday, but not much can be done about it until an editor is appointed. In the meantime I'm following up things that might save time later on, including sending these to you for illustration. However, I doubt that we will need the illustrations for some weeks, so there's no need to rush into them.

All the best
